GENERAL ALPHABETICAL INDEX

A

Abstracts:
Aerodynamic characteristics of twenty-four airfoils at high speed. L. J. Briggs and H. L. Dryden 186
Aeronautical progress in Great Britain. H. E. Wimperis 86
Aileron effect on rolling. R. H. Heald and others 1247
Air cooling and Townend rings. Green and Townend 1113
Air traffic currents. C. Pirath 1156
Art of flying landplanes and seaplanes. Capt. Norman MacMillan .. 138
Automatic steering. A. B. Duval 185
Aviation atlas 1247
Buckling tests of light metal tubes. A. Schroeder 185
Bulletin of the N. Y. Better Business Bureau 38
California's airports 1070
Certificates of airworthiness. H. B. Howard (L) 874
Comment on Obtient LaGuidage Sans Cable. W. Loth 276
The control of the Fokker F. VII-3M. 276
The development of metals for aircraft purposes. Rosenhain 229
The drag and interference of a Nacelle in the presence of a wing *230
Elementary Laboratory Aerodynamics. Arthur L. Jordon 787
Elevator curves. H. J. Van der Maas. 230
Experiments with a wing model from which the boundary has been removed. O. Schrenk *229
The flutter of aeroplane wings. R. A. Fraser and W. J. Duncan 185
Flying and maintenance from the owner's point of view. H. M. Probyn 38
Information obtained from flight tests in 1927-28. W. Hüber 139
Loads on the main planes and tail of an aeroplane when recovering from a dive. H. Bolas and G. A. Allward 277
Los Angeles flight tests (1) and (2). 970
Measuring world flying records. Prof. H. Everling 276
On the maximum load in pulling out from vertical dives. S. B. Gates and H. B. Howard 231
On patriotism. C. G. Grey 87
Plumbing and beating in the skies. J. F. Hardecker 184
Plywood beam webbing. G. W. Trayer. 1289
Recent progress of aeronautical progress in France. Mons. P. Franck 139
Standardization of airport revenue. Arthur H. Abel 87
Tests of five metal model propellers. Lesley & Reid 1019
Tests of four racing type airfoils in the twenty-foot propeller research tunnel. Fred E. Weick 38
Tests of large airfoils in the propeller research tunnel. D. H. Wood 787
Turbulence in wind tunnels. Dryden and Kuethe 1203
Water cooled aero engines. A. J. Rawledge 1071
What the pilot really needs 408
Wind-fuselage gaps Shatswell Ober ... 503
Wind tunnel tests on a model of a monoplane wing with floating ailerons. M. Knight and M. J. Bamber 186
Wind tunnel tests on airfoil boundary layer control. M. Knight and M. J. Bamber *230
Wing effect on propellers. Fred E. Weick and Donald H. Wood 230

June 7	1117 to 1158
June 14	1159 to 1204
June 21	1205 to 1248
June 28	1249 to 1292

Accidents and Accident Prevention:
Accidents. K. F. Smith (L) 1244
Accident figures (ed) 833
Aeronautics Branch to take part in safety congress (N) 852
Air transport accident record 578
Attorney General states attitude towards Bingham accident bill (N) 489
Bingham asks full report on (N) 258
Bratton asks full report on (N) 258
Bratton measure 351
Central Air Lines sued for fatal crash (N) 545
Collisions in mid-air (ed) 92
Colonial plane lands in water (N) ... 1192
Dilemma. Clinton P. Jessup (L) ... 36
Dispel the mystery (ed) 137
Fewer, in Great Britain 1929 (N) 134
For air transport safety (ed) 1075
Great Britain, Germany and U. S. per million passenger-miles 605
How not to handle publicity (ed) ... 363
Increased safety. W. L. LePage (L) . 870
Massachusetts violations of aircraft laws and accident data (N) 655
Navy lowers air fatality ratio (N) ... 854
Newspapers and aeronautics. Lloyd Elderdice (L) 870
Newspapers and airplane accidents. Chas. A. Rheinstrom 640
1929 figures (N) 818
Operations of the Navy's safest squadron. Lt. Comd. William (F) .*373
Personal liberty and flying (ed) 878
Pity the poor Department of Commerce! (ed) 1160
Regulating air commerce accidents. Pendleton Edgar (F) 642
Report decrease in aero accidents (N) 170
Safety in aviation and the public's reaction. Maj. J. J. Jeffers *1172
Safety device (P) 277
Shorelines and skylines (ed) 469
"Tanager" wins $10,000 prize (N). 28
Unavoidable accidents (ed) 42

Advertising:
Advertising safety (ed) 1251
Aerial advertising over N. Y. Louis O. Glatzner (L) 552
Billboard publicity (ed) 630
Carried by New England firm ship (N) *1097
Co-operative publicity. G. F. Barthe (L) 1155
Right kind of publicity. Walter E. Lees (L) 668
What is the matter with our advertising? John Henry Kunkel 703
Aero Underwriters—income in 1929 (N). 538

Aerodynamics:
Construction of airfoil sections and wing generation. Jean Fradiss and Armand Thieblot *61
Development of the "M" wing sections. Max M. Munk (F) *12

Aeronautical Chamber of Commerce:
Chamber wants enlarged board 212
Drafts modifications in by-laws (N) .. 1101
Meeting of performance testing committee (N) 1275
New England Regional Airport Conference (N) 663
N. Y. Port Conference held (N) 546
Officers elected (N) 853
Report discloses growth 211
St. Louis meetings. Edw. P. Warner and Herbert F. Powell 482
Second national airport conference. C. H. Gale 1037

Aeronautics:
American military and naval aeronautics (Tables) 1922-1930 597
Civil aviation in the U. S. 1926-1929 576
Comment on Mr. Stout's article. F. T. Courtney 969
Early aeronautics. E. W. Roberts (L) 871
Editorial comment from the daily press 552
European, and American foreign sales possibilities. Related to John T. Nevill by Leroy Manning (F) *44
Foreign aeronautical activities 600
Government and industry (ed) 1074
Military aviation for foreign countries 601
Mr. Stout's story and his sketch. J. Blondin 969
1930 (ed) 1
1930 prospects. P. W. Smith (L) .. 1201
Now let's get down to work. W. B. Stout 674
Ohio aviation report for 1929 compiled (N) 950
The place for unity (ed) 142
Progress under the Soviet. V. M. Petliakov (F) *108
Public's response (ed) 1206
Rate of growth of the aircraft industry. Robert R. Doane 755
Symposium—what are the prospects for the present year? 380
Aileron pulleys, formica 273

Air Mail:
Adams pick-up tested at Capitol (N). 547
Air transportation and its legal problems. Brice Clagett (F) *636
Airway and operation mileage for last 10 months 574
April traffic (N) 1011

*Illustrated; (ed) Editorial; (F) Feature article; (L) Letter; (P) Patent

Bad weather cuts poundage 177
Bremen plane tries landing mail in Boston (N) 1192
Brown outlines pay plan 176
Canadian air mail. E. L. Chicanott..1177
Canadian 1929 air mail record (N). 626
Contract air mail regularity 576
Costa Rica mail speeded up (N)..... 627
Development of air mail service 1918-1929 575
Domestic air mail routes in operation as of Jan. 1, 1926, 1928, 1929, 1930 580
Estimates reported by committee.... 176
Foreign Express and mail traffic in ton-miles 602
French air-boat line to South America. Chas. H. Gale *192
Germany-Ireland line planned (N)... 549
History by months 575
January statistical report (N) 779
Mail bag for aircraft (P) 409
Mail carried by routes for 1929.... 577
March air mail (N) 829
May report (N) 1237
Miles of U. S. airways 575
More about air mail certificates—editorial correction (ed) 1207
New measure offered 267
New rates to Latin America (N)..... 31
New service links Canadian cities (N) 545
New York-Atlanta mail service to be increased (N) 662
N. Y. R. & B. A. Line completes first trip north (N)..... 499
Non-stop airmail service, Washington Star (L) 874
Operators submit map of mail routes to postmaster (N) 1236
Pan American Airways plans new route (N) 826
Postmaster General speaks his mind (ed) 141
Progress on rate plan (N) 221
Second thoughts on air mail certificates (ed) 1159
Ship-to-shore air mail service. C. H. Gale *1084
Ship-to-shore line resumed (N) 961
Special mail stamps for Zeppelin (N) 779
Statistical report for February (N)... 829
Statistical report for March, 1930 (N) 1053
Statistical report for December, 1929 (N) 501
Statistics 402
Volume of air mail in December, 1929, January and February, 1930 (N).. 625
Watres bill (N) 960
Watres bill meeting opposition 400
Watres mail bill reported by committee to house (N) 660
Aircraft carriers limited in Naval Treaty (N) 913

Aircraft Construction:

Combating corrosion of metal parts. J. E. Sullivan *201
Consolidated "Commodore" flying boat. Navy XPY-1. Leslie E. Neville (F) *49, 54
Construction details of the DO.X flying boat *10
Junkers G-38. Richard M. Mock (F).*113
Specializing the production of wooden parts. John F. Hardecker (F)... *20
Technical details of the Dornier X. (Abstract of paper by Dr. Dornier) (F) *4, *10

Airfoils—Construction (P) 1290
Construction of airfoil sections and wing generation. Jean Fradiss & Armand Thieblot..... *61
Airplane hardware. Alexander McAdie (L) 136

Airplanes:

Aerial upper and lower berths (N)..*1185
All-wing type airplane. John K. Northrop (F) *645
Arrow sport *844
Bach makes record (N) *773
Boeing 80-A. Frank Canney (F)...*943
Boeing low-wing "Monomail" (N) .*1143
Boeing monoplane (N) *615
Boeing P-12 speed (N) 167
Bowlus produces new type sailplane (N) 1278
Caproni 90 (N) 664
Cavalier plane with Townend-like ring (N) *1184
Classification of licensed aircraft by state, type, and capacity..... 564
Coast guard plan new planes..... 352
Cockpit cabin top on mail planes...*454
Crescent plane (N) *735
Curtiss Carrier Pigeon 11.....*429
Curtiss Condor. L. E. Neville.....*1128
Curtiss "Condor" transport *426
Curtiss "Kingbird" *420
Curtiss tanager. W. G. Brown (F).*236
Deflating a big statement. R. de Marolles (L) 36
Desoutter cabin monoplane.....*1266
Driggs "Skylark" *424
Fairchild "42" *432
Farman monoplane (N) *747
"Fleetster" at the Detroit show.....*800
"Flying wing" tested *395
"Fokker" at the Detroit show.....*801
Foldable wings (P) 39
Ford tri-engined monoplane *430
"Gee Bee" sport or training plane..*1265
Giant airplanes (ed) 1161
Hodkinson transport 208
Inland sport monoplanes *1264
Ireland "Privateer" *422
Junior Wasp Emsco (N) *956
Junkers G-38. Richard M. Mock (F) *113
Krapish's tow-wing plane (N)..... *655
Licensed airplanes by age and make.. 570
Lockheed at the Detroit show.....*804
Macchi-Curtiss *1207
Macchi seaplane *1208
Martin bomber (N) *1231
Martin torpedo plane (N) *733
Mercury Chic *1265
Mercury racer *1209
Model 20 fleetster *1051
Monocoupe "90" *1264
Most economical plane. G. D. Recksten (L) 1017
1930 airplanes available 724
Northrop low-wing (N) *736
Ogden "Osprey" at the Detroit show.*807
Ogden "Osprey" chair installation...*396
Patent 1114
Pheasant develops single - place "Traveler" *27
Planes, engines and accessories at the Detroit show. Leslie Neville *796
"Populair" light-plane *845
Prudden-Whitehead low-wing demonstrated *1052
Repairing and assembling device (P) 39
Ryan "Foursome" *423
Savoia-Marchetti amphibian *432
Segrave "Meteor" described (N)....1243
Sikorsky S-39 amphibion at the Detroit Show *803
Specifications on American commercial 91
Spin-proof plane demonstrated at Berlin (N) 665
Stearman "Business Speedster".....*428
Student Prince training plane.....*210
Sunbeam cabin biplane *208
Supermarine—Napier S-4.....*1268
Tanager and the dub pilot. E. P. Warner (F) *249
Tanager and its history. R. R. Osborn (F) *243
Technical details of the Dornier X. (Abstract of paper by Dr. Dornier) (F) *4
28-passenger all-metal monoplane completed in France (N) *35
Verville air coach *844

Airports:

Airport Construction Projects....33, 80, 130, 178, 222, 268, 360, 401, 462, 502, 546, 624, 662, 744, 828, 778, 864, 921, 962, 1012, 1062, 1108, 1150, 1194, 1238, 1284
Abilene, Tex., airport completed (N). 744
Air and the land. N. Y. Herald-Tribune (L) 873
Air Corps port construction funds reduced (N) 1283
Air Corps states plan for Rockwell (N) 1239
Airplane ports and airships. R. S. Smilie (L) 1288
Airport analysis 584
Airport on a paying basis. J. P. Wines (F) *1217
Airports and landing fields, Nov. 15, 1929 582
Calcium chloride use at ports disapproved (N) 660
Construction data 584
Construction projects, 1929. C. H. Gale (F) *323
Cleveland Port income 402
Curtiss-Steinberg opened (N)..... 827
Dedicate Bowles Field at Springfield (N) 1148
Form surfacing and drainage committee (N) 1282
Glendale, Cal., completes air terminal (N) *81
Hearings on coast airship base begun (N) 1050
Hearings continue on navy airship base (N) 1145
Hog Island purchase agreement (N)..1107
Hog Island tract sold to Philadelphia for airport (N) 826
Lehigh Airports Competition and prize-winners. Charles F. McReynolds (F) *104
Lighting Los Angeles airports. C. F. McReynolds *993
List of ports of entry 177
Mexico, port of entry..... 361
Michigan provides permits for airports (N) 625
New Detroit City Airport. John T. Nevill (F) *720
New mail (ed) 136
Pennsylvania issues licenses to airports and landing field..... 463
Pontiac gets first A-1-A rating..... 358
Pontiac port has complete equipment (N) 499
Problems of the airport manager. G. M. Turner *1256
Recent dedications (N).....1285
Restaurants (ed) 2
Runways, machine for oiling 180
St. Louis adopts improvement plan (N) 547
Seaplane base on Long Island..... *32
Springfield, Mass., building new port (N) *79
Surfacing *1115
Surveying the airport problem of New York City. John C. Holme, Jr. (F) *56
Surveying the problem in New York City. J. C. Holme (F).....*157, 198
Transmitter *1115
Transport terminal maintenance. E. W. Fair *937
Tucson City makes improvements (N) 1100
United Airport (N) *961
U. S. has total of 1,561 (N)..... 129
Western Air Express dedicates its Los Angeles port (N) 865
Youngstown airport leased (N)..... 777
A. C. Zimmerman and W. H. Harrison design "Quadrant Airport," win first prize. Charles F. McReynolds (F) *104

Airships:

Army lighter-than-air to be augmented 171
Building Zeppelins in the U. S. Walter E. Burton (F).....*366
Comparison of England's two new (F) *65
Costs of R-100 (N) 83
Goodyear Zeppelin to have electric generator (N) 73
Graf Zeppelin crosses Atlantic again (N) 1110
Graf Zeppelin starts for Brazil and Lakehurst (N) 1065
Plan second Slate ship (N) 494
Report of Zeppelin performance (N) 35
R. 100 established record 271
ZRS-4 master ring raised into position (N) 737

Airway Marking:

"Airways notices." F. C. Hinsburg (L) 1200
Four new lighted across Pennsylvania (N) 777
Alaskan airways make rapid progress. K. K. Hoyt (F) *894
Alloys—Phos-Copper 1248

American Engineering Council:
Creates an airport committee (N)... 661

American Legion Memorial Chapel Association:
Cathedral at Lakehurst 354

American Society of Mechanical Engineers:

Cites cost comparison of auto. aera engine parts (N) 1231
Dayton session. H. O. Pattison, Jr..*1088
Amphibion planes—Operating short haul air ferries. C. F. McReynolds...*1120
Army Air Corps program submitted (N). 118
Army-Navy Standards Conference (N)...1000

Australia:

Air report (N) 965
Airlines report progress (N) 1241
Aviation shows growth (N) 781
Aviation voted more funds (N)..... 550
Guinea Airways reports growth (N).1067
Line opened between Melbourne and Brisbane (N) 550
Autogiro—Pitcairn testing *353

Aviation:

"Aviation" (ed) 1205
Covering the news (ed) 1249
Genealogy of 23
Seeks showdown (ed) 137

Awards:

Aero Chamber Byrd medal (N) *1229
Aviators League gives trophies (N).. 550
Cheney award to William A. Matheny (N) 167
Du Pont Rayon awards prize for textile design (N) 916
Guggenheim medal to Dr. Prandtl (N) 1006
Harvard Flying Club wins Loening award (N) 821
Lehigh Airports competition. Chas. F. McReynolds *104
Mackay trophy to A. W. Stevens.... 214
N.A.C.A. awarded Collier trophy for 1929 (N) 957
"Quadrant Airport" design wins first prize. Charles F. McReynolds (F).*104
Thompson speed trophy to A. H. Oriebar 355

B

Backfire trap (ed) *671
Barograph—calibrating the barograph used by Elinor Smith (N).....*908
Bearings, Fafnir 188
Bomb—dropping device (P)..... 139

Book Reviews:

Aeronautical law. W. Jefferson Davis 553
Air defense. E. B. Ashmore..... 184
Air law review, volume 1. (ed. by A. Reppy) 275
Airplane mechanics rigging handbook. Rutherford F. Harts and Elzor E. Hall 554
Airplane welding. J. B. Johnson....1018
American airport designs.....1246
Atlas of the aerodromes, landing fields and seaplane stations in the Netherland East Indies..... 86
Aviation from the ground up. Lieut. G. B. Manly..... 37
Biography of the Wrights. John R. MacMahon 786
How to fly. Barrett Studley..... 38
Jump! Don Glassman.....1202
Measuring world flying records. H. Everling 276

*Illustrated; (ed) Editorial; (F) Feature article; (L) Letter; (P) Patent

Navigation of aircraft. Lt. Logan C. Ramsey 408
1929 U. S. aviation reports. Arnold W. Knauth 137
Pilot's Manual of Air Law. (ed. by Allen Furlow and others) 508
Radio and its future. (ed. by M. Codel) 1112
This aviation business. E. W. Dichman 228
Torsional strength of wings. C. P. Burgess 669
Water pressure distribution on a twin-float seaplane. F. L. Thompson... 670
Boring machine 1199
Bowles, W. Hawley, makes glider record.. 171
Brake, airplane (P) *509
Brake, airwheel (N) 955
Brake and rudder pedal (P) *554
Byrd made Rear-Admiral (N) 25

C

Cam shaft driving mechanism (P) *231

Canada:
Air budget for 1931 seeks increase (N) 540
Begin Federal base (N) 1010
Bonding law changes proposed 456
Canadian air mail. E. L. Chicanot.. 1177
Canadian aviation (tables) 592
1929 airway statistics (N) 1149
Carburetor (P) *277
Carburetor for airplane (P) *509
Cement, gasket (ed) 671
Central Aero-Hydro-Dynamic Institute of Soviet Union. V. M. Petliakov (F). *108
Chairs—Angle-Steel equipment 1020
Chile, Curtiss to establish branch plant in Chile (N) 657
China, airways operations 404
Plans for developments (N) 1015
Clinic, flying—completes tour 394

Clothing:
Electrically heated fabric (P) 88
Heating flying suits 1115

Clubs:
Glider clubs newly organized (N) 1055
Private flying (ed) 93
What are flying clubs doing? B. D. Coats (L) 1155
Coast defense including aircraft, in army control 395
Coating, pontoon (ed) 671
Compass—G. E. card compass *783
Compressor, aviation 1248
Conferences, more discussed and less reading (ed) 1119

Control:
Control stick for airplanes (P) *510
Control surface mechanism (P) 1247
Dual control for airplanes (P) *510
Surface control mechanism (P) 1157
Corrosion—Combating corrosion of aircraft metal parts. J. E. Sullivan *201

Costs:
Light plane need. Wm. J. Buckley (L) 785
Tell the world (ed) 411
Coupling—Imperial hi-duty 967
Cowl fastener—Stanley 875
Cowlings, shielding effect of N.A.C.A. F. H. Drake and A. W. Parkes Jr. (F) *59

D

Design:
Aircraft drafting. J. F. Hardecker.. *1162
Better landing gears and multi-engined planes. Joseph Kreutzer 527
Bringing the new idea to the old shop (ed) 1160
Building Zeppelins in the U. S. Walter E. Burton (F) *366
Compromises (ed) 927
"Consolidated" Commodore flying boat. Leslie E. Neville (F) *49, 54
Emphasize value of racing 181
Factory learns from the field (ed) ... 974
Giant airplanes—go slow on abandoning wood 527
Higher aspect ratios for stability—effects of the airwheel. Albert S. Heinrich 525
Higher cruising speeds without increase of landing speed. Felix W. Pawlowski 527
Lane, of Dept. of Commerce, discusses design before S.A.E. meeting. Edw. P. Warner (F) 443
Merchandising begins in the drafting room. John F. Hardecker 711
1930 airplane a symposium 331
1929 trends. L. E. Neville *327
Progress along conservative lines. Thomas Carroll 526
Refinements and more speed—commercial considerations control design. Garland P. Peed 533
Safety and high performance—go slow on metal. Wm. Wait 525
Still higher performance and easier maintenance. Joseph S. Newell... 526
Symposium by leaders in the industry on 1930 airplane and engine design trends 523
Symposium—what are the prospects for the coming year? 386
Technical details of the Dornier X. (Abstract of paper by Dr. Dornier) (F) *4
Thick airfoil sections with smaller center of pressure travel—superchargers—magnesium alloys. Jean Fradiss 523
Work for safety—research on ultralight alloys. Chas. H. Day 524
Distribution—Aircraft demand—an anayais. Robert R. Doane (F) 97
Dolly, aircraft (P) 1247
Drawing. See Design.

Drills:
Blue diamond 1248
U. S. drills *1020
United States electric 273
Dusting—Extensive crop dusting planned.. 216

E

Employees:
Number of employees by size of plant 1914-1929 563
Engine test apparatus at Arlington laboratory *170

Engines:
Aeronautics Branch operating new engine laboratory (N) 542
Air intake unit offered (N) *651
Airplane engine cooling systems (P) 971
Ascendency of the air-cooled radial-Diesels in largest sizes—higher r.p.m. Louis Merrill 530
Brownback "Tiger" *473
Builders look at 1930. A symposium 341
Chevrolet D-333 at the Detroit show. *803
Classification of engines in licensed planes as of Jan. 15, 1930 568
Closer government regulation—work toward standardized installation details. Glenn D. Angle 532
Commercial engine production 1928 and 1929 558
Diesel installation on Ford (N) 854
Exhibited at the St. Louis show (F). *470
Fairchild inverted *476
Gipsy completes 300-hr. test *355
Harkness Hornet developed 362
Junkers G-38. Richard M. Mock (F). *113
Kinner "100" *479
Largest engine. Rolls Royce, Ltd. (L).1201
New aero engine offered by Lambert (N) 26
New cylinder arrangements—self-contained power plants. O. E. Szekely. 534
New Salmson engine 209
1930 engines available 729
